Manvitha Budidha

+91 8639414175 | manvithabudidha@gmail.com | Portfolio | LinkedIn | GitHub | LeetCode

Education

G. Narayanamma Institute of Technology and Science — **Hyderabad, India**
B.Tech in Information Technology — *2024 – 2028*
– CGPA: **9.39 / 10.0** | Coursework: Data Structures & Algorithms, DBMS, Computer Organization & Architecture, Discrete Mathematics

Sri Guru Junior College — **Hyderabad, India**
Intermediate (MPC) — *2022 – 2024*
– Percentage: **98.2%**

New Vision High School — **Suryapet, India**
Secondary School Certificate (SSC) — *2022*
– CGPA: **10.0 / 10.0**

Projects

StyleSpeak – AI Outfit Recommendation System | *Python, FastAPI, React.js, Gemini API* | Live | GitHub
– Built a full-stack outfit recommendation app with a React.js frontend deployed on Vercel and a Python FastAPI backend, integrating the Gemini API to generate explainable, constraint-aware style suggestions.
– Designed REST API endpoints to handle user preference inputs, route requests to the Gemini API with structured prompts, and return parsed outfit recommendations with reasoning traces to the frontend.
– Implemented constraint-tracking logic to filter recommendations by user-defined parameters (occasion, budget, weather), ensuring outputs are grounded and consistent.

MediAssure – Medication Management App | *Flutter, Firebase Auth, Firestore, FCM* | GitHub
– Built a cross-platform (Android/iOS) app with a Firestore-backed schema storing per-user medication schedules, dosages, and refill thresholds across 50+ active users; enforced data isolation via Firebase Auth UID-scoped security rules.
– Integrated Firebase Cloud Messaging (FCM) to deliver push notifications 15 minutes before each dose, reducing missed-dose events by ∼40%.

Coding Progress Tracker | *Python, FastAPI, PostgreSQL* | GitHub
– Engineered a REST API with async FastAPI handlers for logging solved problems, querying streaks, and aggregating per-topic statistics; normalized PostgreSQL schema with indexed queries achieving under 50 ms average response time.

Technical Skills

Languages: Python, JavaScript, SQL, C, Java
Frameworks & Libraries: FastAPI, React.js, Flutter
AI / ML: Gemini API, LLM APIs, Prompt Engineering, LangChain, Agentic AI
Databases & Tools: PostgreSQL, Firestore, Firebase, Git, GitHub, Vercel, Render

Leadership

GeeksforGeeks Campus Chapter – GNITS — **Hyderabad, India**
Campus Mantri (Chapter Lead) — *2024 – 2025*
– Led the GFG campus chapter for one year, managing a team of student members to drive technical engagement across the institute.
– Organized and executed coding contests, workshops, and technical events, growing chapter participation and peer learning initiatives.

Achievements & Certifications

CipherCop National Hackathon – 3rd Runner Up: Secured 3rd Runner Up, shortlisted among **500+ participants** in a national-level cybersecurity hackathon.

CodeChef Starters 238: Ranked **34th out of 12,846 participants** in a competitive programming contest.

Naukri Campus Coding Challenge: Finished in the **top 15%** out of all participants nationwide.

Competitive Programming: Solved 300+ problems on LeetCode and CodingBat covering arrays, trees, graphs, dynamic programming, and binary search; handle: manvithaa_01.

Certifications: Google Kaggle – Agentic AI (5-day); IBM – AI Cybersecurity Fundamentals; Google – AI Essentials.
